

## Our approach

The idea for the Assure life-saving wristband came from a need to solve a problem for the founder's mother. There simply wasn't anything suitable for people who were active to give them protection for a variety of situations.

We believe that a good alarm needs practical triggers, should give uninterrupted protection, be simple to use and respect the needs of our users to feel current rather than stigmatised by anything they have to wear.

## Is the Assure the right solution for your needs?

4.8 330 reviews  
★★★★★

**Whatever happens,  
wherever it happens,  
whenever it happens,  
help is at hand.**

Peace of mind comes from  
uninterrupted protection

24/7

**Whatever  
happens**

#### **SOS Alert**

A simple squeeze of the  
wristband calls for help.

#### **I'm OK Check**

The simplest way to  
confirm you're OK in the  
morning and before bed.

#### **Fall Alert**

Monitors for severe falls.

#### **Cold-at-home alert**

Ensures the wearer  
is warm at home.

## **Whenever it happens**

The Assure is designed to be worn all the time  
throughout the day and overnight, to ensure  
you get uninterrupted protection.

The Assure has a year-long battery  
life, is waterproof, comfortable to  
wear and has award winning styling,  
so will always be there when you  
need it.

## **Wherever it happens**

The Assure base station gives resilient  
coverage to protect you throughout your  
home and garden.

When you're out and about, our free  
smartphone apps keep you connected  
wherever you go.

All alerts are delivered to your chosen  
responders by phone calls, supported by  
texts and emails.  
Making sure everyone gets  
the right information at the right time.

## **Connect direct to family & friends**

The best people to respond in an emergency are  
those who are familiar with the wearer.

We designed the Assure to connect directly via  
automated phone calls until a responder  
accepts the alert.

## **When family & friends aren't available**

For a small additional fee (£35), you can  
add a professional call response service  
who will call the emergency services,  
if necessary.
