

Dear Member

NAPOT Survey of Research and Audit Activity

We are trying to establish a base line of research and audit activity amongst members. We are aware that not all research or audit projects are published but even in an unpublished state information from such sources can still be very useful contributions to our evidence base.

Even if you have had no involvement in research or audit - Please help us by completing and returning this survey.

The information you provide will be held in accordance with the Data Protection Act

Audit Activity

Audit information can be very useful for obtaining a picture of the effectiveness of OT in specific areas plus important details about case loads patterns amongst many other things. People can be a little reluctant about sharing audit information as they can show areas in need of improvement but if the full audit cycle has been completed information on how deficits have been tackled or are about to be tackled will be most useful to others in similar situations. So, please share.

Please provide us with the titles of any clinical audits that you have been involved in which have been completed:

Please provide us with the titles of any process audits you have been involved in and which are finished:

Please list titles of any audits which have yet to be completed:

Research

We want to know if you have had any research experience at all at any level.

You may be an experience researcher, have been part of a research team, or been involved in research projects as part of a course you went on which required a piece of research from you. Let us know no matter how long ago your research was undertaken.

Titles of projects you have completed as an individual:

Titles of projects you have been involved in as part of a team:

Titles of current projects you are involved in as an individual:

Titles of projects you are currently involved in as part of a team:

Plans for future research:

Published research. Please give full reference for your paper(s):

Formal research training / level: (please tick as appropriate):

PhD	<input type="checkbox"/>	Completed research module at post grad level	<input type="checkbox"/>
MSc in Research	<input type="checkbox"/>	Undergone in-house research methodology training	<input type="checkbox"/>
MSc in other subject	<input type="checkbox"/>	Undergone training in literature reviews	<input type="checkbox"/>
Diploma in research	<input type="checkbox"/>	Undergone training in literature searching	<input type="checkbox"/>
Certificate in Research	<input type="checkbox"/>	Undergraduate module in research	<input type="checkbox"/>

Other (please state):

Members with research experience.

Are you willing to offer advice and moral support to other members just embarking on the research trail with refining research questions, proposals for grant applications etc? We would of course approach you first before putting you in contact with the person requiring advice.

Yes No

Thank you for your help.
