

## ***Advise CABE on Inclusive Design***

**We need interested, committed people to advise us on how to make spaces and places accessible for all of us.**

At CABE, the government's advisors on architecture, urban design, and public space, we are putting together a diverse group of interested and committed people to form our new '**Inclusion by Design**' group.

The **Group** will advise CABE on all aspects of inclusive design – ensuring buildings and spaces are accessible in every sense, that they are people-friendly and welcoming for everyone, particularly those who may be prevented from using and enjoying them.

You will need either:

- An understanding of inclusive design issues for individual buildings or spaces, master plans, or major regeneration projects.

Or:

- Experience as a critical user, who can also represent others' views, of the inclusive and accessible design of places and spaces.

Membership is on a voluntary basis, but expenses are paid to be sure you can attend our meetings in comfort and with ease. Our meetings are every three months, starting in November.

For more details, contact Callum Lee, email [clee@cabe.org.uk](mailto:clee@cabe.org.uk) or phone 020 7070 6708. We would be very pleased to hear from you.

The closing date for returning applications is the 6<sup>th</sup> October 2008, with interviews on the week of the 13<sup>th</sup> October.
